

Student Success Initiative

Developmental Math Reform Status Report, June-July 2016

Achievements in this period

Jenny and Charlotte chose a textbook and online homework system for Math 090/088. Course schedules and syllabi and many initial worksheets have been created. A UIC BOX account was created for instructors to use to collaborate and share their resources.

Dave and Jenny submitted paperwork for changes to Math 118 and the creation of Math 077, the Math 118 corequisite course allowing students that place into Math 075 level to start directly into a credit bearing course. Math 975 will be phased out if the changes are accepted.

Open Issues:

None at this time.

Key Decisions

Textbooks, training topics and methods

Goals for next period:

Specific coursework for Math 090/088 and 110 need to be finalized. Training for instructors and TAs on the new online homework. Training of TAs on our expectations for grading (the use of partial credit), interactions with students.

Progress Indicator:

Team Lead: Jenny Ross

Team Members: Martina Bode, Dave Marker, Brooke Shipley
